

PODJET

HIGH-THRUST FOR AMPHIBIOUS VEHICLES

MAX KW
MAX BHP
50kW - 150kW
67 BHP - 204 BHP

Pump casing is
constructed from
marine grade aluminum

COMPACT POWER

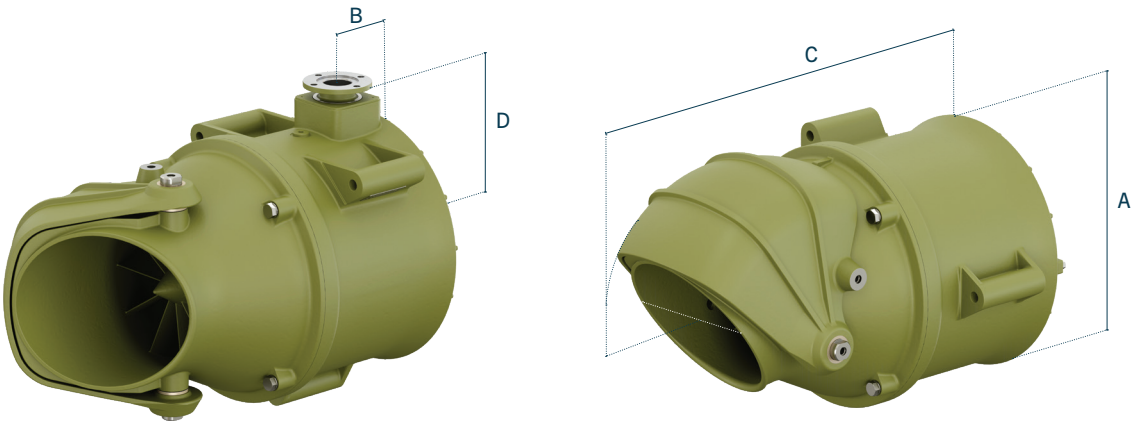

With thousands of units sold for amphibious military applications the MJP PodJet is a proven compact propulsion solution that offers high thrust, extreme maneuverability, and easy installation.

The PodJet drives can be mounted in many angular orientations for shaft alignment purposes. They can also be coupled to several power devices including cardan shaft off the primary vehicles engine or an electric or hydraulic motor.

The optimal and efficient pump design ensures that despite turbulent water flow the MJP PodJet will deliver the promised thrust no matter the environment.

SPECIFICATIONS

FOR AMPHIBIOUS VEHICLES

SIZE	KW	WEIGHT	A	B	C	D
250	50kW	25kg	324mm	74mm	520mm	200mm
330	90kW	43kg	370mm	102.5mm	688mm	216mm
440	150kW	105kg	570mm	152mm	957mm	295mm

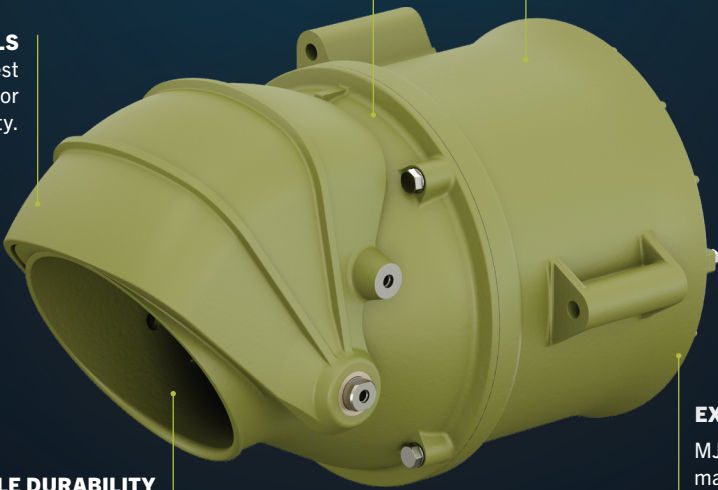

PODJET

SUPERIOR THRUST

MJP PodJet offers superior thrust and excellent swimming capabilities for amphibious vehicles.

HIGH QUALITY MATERIALS

Constructed from the highest marine grade aluminum for superior performance and durability.

RELIABLE DURABILITY

Proven track record of reliability, performance and durability with thousands of units in operation globally.

PROVEN COMPACT CONSTRUCTION

Proven compact construction means minimum maintenance requirements and low life-cycle-cost.

EXCEPTIONAL MANEUVERABILITY

MJP PodJet features exceptional maneuverability, can hold station in currents, and offers steering when reversing in water.

PANDUR II 8X8
Built and developed by General Dynamics
European Land Combat Systems

MJP IS THE WORLD LEADER IN WATERJET PROPULSION, BUILT AS
A FORCE TO TRUST.
SO YOUR ONLY LIMITATION IS HOW HARD YOU HIT THE THROTTLE.
